## Which GHR Formula Is Right For You?

GHR-15 Powder and capsules are the original first generation HGH Releasers.

**GHR-15 Powder Formula**

GHR-15 Powder is the most popular and easiest way to use GHR-15 as you only need to mix a small scoop of great tasting citrus flavored powder with a small glass of water.

Simply dissolve one (1) scoop of GHR-15 in three (3) to four (4) oz. of water, stir well and drink. For best results, take GHR-15 at bedtime, three (3) hours after evening meal on an empty stomach.

Click "buy" to order the GHR-15 powder formula.

**GHR-15 Capsules**

In 1998 GHR-15 led the way as the first anti aging product in the anti aging industry, which was designed to replace costly and controversial injections of human growth hormone by safely releasing one's own stored growth hormone naturally.

Today GHR-15 remains the best, safest, and most affordable alternative to costly injections that has been released to the public. Today tens of thousands are enjoying the benefits of this amazing product as well as the more advanced formulas shown below.

Click "buy" to order the GHR-15 capsule formula.

**GHR Gold**

GHR Gold was release after further studies showed that with a few adjustments to the original formula, a greater release of stored growth hormone can be achieved.

GHR Gold is the product of choice for those people who are beginning to show more obvious signs of aging. It is the best HGH releaser for those in their 40's and 50's.. [Learn More](#)
